TEN LIVES WERE LOST IN MINNEAPOLIS HOTEL

List of the Victims—Heroic Firemen Fell From a Ladder While Trying to Rescue a Woman

Minneapolis, Jan. 10.—Ten persons lost their lives in the fire which burned out the sixth and seventh floors of the West Hotel. The list follows:

John Barwin, captain of the ladder company No. 1, fell from a ladder after saving a woman's life and was killed.

W. G. Nichols, member of a grain firm, suffocated.

Thomas Hemmerville, of Springfield, Illinois, died on the way to the hospital from suffocation.

Allice Larson, chambermaid, jumped from the seventh floor and was killed.

J. E. Wolfe, traveling salesman, of New York, suffocated.

Clinton Lammie, a guest, suffocated.

Two unidentified men jumped from the sixth floor.

Mrs. M. E. Hodgson, of Minneapolis, jumped from the seventh floor.

W. E. Magnus, of Duluth, suffocated.

Mrs. Emily Barlow, died from inhaling smoke.

Among those reported missing is Prof. W. C. Bailey, of the University of North Dakota, who was to address the state agricultural society to-day.

The negro porter is not accounted for.

The blaze broke out in the upper stories and the electric bell immediately sounded the alarm in all rooms.

Many guests were already up and escaped down the stairways but the exits were soon cut off by fire and the halls filled with impenetrable smoke. Several of the fire department fell while trying to lower Emily

Barlow from the fifth floor and was killed. The woman was caught by Capt. Kooch, Mrs. C. H. Wood and her daughter, proprietress of the West Hotel, were both rescued, the latter being carried down a ladder to safety.

One of the most thrilling rescues was that of F. A. Chamberlain of the Security Bank, and his family, who were not awakened in time to make their escape by the usual exits. For many minutes after it appeared their position was untenable they remained at their window in the topmost story. Chamberlain quickly gathered the bedding and sheets and made a rope of them and at the same time extension ladders were being placed to position but found too short. The

pumper ladders were lashed to these and a fireman with a rope about him firmly placed the ladder to the chimes of thousands. Arriving at the window he took one after another and lowered them to the extension ladder two stories beneath by means of a rope, where they were brought to safety. The rescue was accomplished amid deafening silence. When the last person was lowered and the fireman followed the cheering broke loose. It was one of the most thrilling scenes of a fire ever witnessed in Minneapolis.

Barwin appeared at the seventh floor carrying Emily Barlow down the sealing ladder when the terrified woman tried to jump to the window ledge causing the captain to lose his balance and falling seven stories to his death. The fifth, sixth and seventh floors were completely gutted. Several persons unaccounted for have been suffocated in their rooms. One woman died on her way to the hospital.

MANITOBA MAN'S STRENUOUS CAREER

Liberated From Penitentiary He Immediately Finds Means of Getting into Trouble Again

Brandon, Jan. 10.—Thomas E. Brown, who a short time ago completed a penitentiary term and recently left Winnipeg suddenly, after opening an office in the north end representing himself as agent of the Kelly Milling Company, of this city and who married his stenographer after an acquaintanceship of a few days giving the clerkman a bogus \$10 cheque, is again in trouble. He came to Brandon and was desirous of buying the restaurant business of John F. Wright. He gave Wright a cheque on the Bank of Hamilton for \$1,448.50, and while Wright went to cash it Brown decamped. He was next heard of at Elkhorn where he said he was acting for Messrs. McKenzie & Mann, buying cars in large quantities and giving in payment worthless cheques. He was brought up in police court and remanded for a week.

CAPTAIN REWARDED
London, Jan. 10.—Capt. Ford of the steamer Stork has been presented by Lloyds with a silver cup and seventy pounds. He brought her cargo of furs safely to London after being caught in the ice off Cape Pembroke.

PONOKA ITEMS
Ponoka, Jan. 10.—A family of very desirable settlers arrived in town Tuesday in the person of Mr. and Mrs. Michael Donovan, with their two daughters from Eddes, South Dakota. Mr. Donovan was up here last summer, and was so favorably impressed with the country that he took up land in the Blindman district where he intends making his future home.

In the departure of Mrs. Threhold for homesteads to the northwest of earliest settlers.

At last night's council meeting Wm. Fullerton was appointed to the office of town assessor, while H. E. Manning received the appointment as town auditor.

A big demand is being experienced for homesteads to the northwest of town, supposedly on account of the projected railroad running through there.

RED DEER HAPPENINGS
Red Deer, Jan. 10.—Mrs. Percy G. Owen left for Calgary on last night's train.

A. E. Farncombe left yesterday for Calgary on the noon train.

A game is arranged for Monday evening between Calgary and Red Deer.

J. W. Lucy, one of Calgary's ball players is in town.

Mr. R. L. Bowser who has been a guest at the Alberta hotel for the past three or four weeks, left today for Spokane via Vancouver.

There are reports of another nest greengoods scheme that has been worked on the unsophisticated people of Red Deer. It appears that a gentleman of clerical aspect struck down about two weeks ago and canvassed the town for the benefit of the poor benighted Armenians. All that was required to obtain one of these people as a servant for a period of three years was for any good hearted housewife to hand him \$50 to pay travelling expenses.

Many trusting Red Deer people took advantage of this tempting offer, some even casting the bread too upon the waters. Reports come now that those dear Armenians have no intention of leaving terrible Turkey.

LUNATIC SHOT AT A CHILD

Mounted Police Investigating Conjuror Creek Report

Leduc, Jan. 10.—Constable Chaney, R.N.W.M.P., has left for Conjuror Creek settlement in search of a supposed lunatic.

It appears that on Monday a man came to the home of Henry Clark, who lives about twenty miles west, in the Conjuror Creek district. Only Clark's youngest son was at home.

The man carried a rifle and commenced chasing the boy around the house threatening to kill him. The boy ran into the house and the man followed, still threatening to kill him and is reported to have shot at the child and missed.

As he was loading the gun again the child ran past him, got out of the house and succeeded in getting away.

The Mounted Police here have no information on the Clark story from Leduc, except a telephone message from the policeman there to the effect that so far there have been no arrests made and the identity of the supposed lunatic is unknown.

It appears that about a year ago Clark and a neighbor by the name of Barnes had some trouble and that Clark was arrested and accused of shooting at Barnes. Clark put up the defence that he thought that Barnes

was the present trouble is another outbreak of the Clark-Barnes feud.

CALGARY PLUMBERS STRIKE
Calgary, Jan. 10.—The most brilliant ball ever held in the west was held to night when Mrs. W. R. Hall was hostess to over two hundred and fifty of the people of Calgary and district. The ball was held in the opera house.

In the first of a series of hockey matches between teams representing the various hotels in the city, the Grand Union defeated the Royal four goals to three.

No settlement has yet been made in the plumbers strike. Efforts will be made to get representatives of each side together today. The plumbers are still holding out for a uniform wage of 45 cents per hour. The employers agree to give this to some of the employees, but not all.

PECULIAR CLOSING BY-LAW
Winnipeg, Jan. 10.—The attempt by the police commission to cram the lid down tight in Winnipeg as far as the drug store trade is concerned will be vigorously fought by that trade, and already steps have been taken to organize against the coming trouble. One druggist has already been fined by the police magistrate for selling after hours, the specific offence being that of having disposed of a hockey stick. A phase of the question which constitutes a problem however is that the by-law if enforced according to its present reading would not permit the filling of prescriptions after six o'clock but states that the store must not be kept open. It will be impossible for doctors to have prescriptions filled after six o'clock.

BUDGET OF GENERAL ITEMS
Louis G. Thoin, a Montreal grocer, aged 45 years, committed suicide by putting a bullet into his brain at Santa Fe.

James Yates, living near White Onkes, a ranchman, perished in a snowstorm yesterday, his body was discovered in a snow bank two miles from his cabin. As a pillow he had used his hat and scarf and his hands were folded on his breast in the attitude of prayer.

Charles Newton, a 39 year old goat herder perished in a snow storm in the Sacramento mountains.

NEW SASH AND DOOR FACTORY

McInnis and Lyons Increase Plant at Their Saw Mill and Build New Factory in the City

Dr. H. L. McInnis leaves this afternoon for his sawmill at "the Springs" 18 miles north of Morinville, where he has 75 men at work cutting lumber for the Edmonton market.

The mill which is owned by McInnis & Lyons, has been working since the early fall on the ten thousand basis, but tomorrow they will start additional plant which will bring the daily cut up to 30,000. The timber is all spruce of a first-class quality and should bring the top price in the local market. The cut is being hauled to the proposed station at Morinville and there stacked in what will be the railway yard to await the construction of the line next summer.

At the Edmonton end, McInnis & Lyons have built a planing mill and sash and door factory in this city, with which they intend to work up the product into dressed and finished lumber. The factory is on the river side of Jasper avenue east, about a half a mile from the Alberta hotel. The building has been sheeted in, and is ready for the machinery, which will be here early in March, and will be in place long before the steel is laid on the Morinville branch. The work will give steady employment to eight or ten men.

BRITISH STATESMAN GONE
London, Jan. 10.—Right Hon. Charles Thompson Ritchie, first baron Ritchie and former chancellor of the exchequer who was stricken last night with paralysis died today at Biarritz, France.

Lord Ritchie was the son of William Ritchie of Rock Hill, Forfarshire, and was born in Dundee.

THE "EDMONTON DISTRICT" IS ONE FIFTH OF THE DOMINION

The Year's Business at the Land Office Indicates the Rapid Development of the Immense Area Tributary to the City

When business men, homesteaders, real estate men or ranchers visit the land office in Edmonton, they are usually heard to remark, as a sort of stock salutation, before they make known their business, "Pretty busy today!"

The land office certainly is busy. In the past year no less, and probably many more, than 20,000 people have called and done business over the counter. The clerks estimate, there have been at least 75 visitors a day during the year just closed. This brings the figure up to 22,500 for the year, which no doubt is a very low estimate.

Probably a better idea of the amount of business done there in the past twelve months may be gotten from considering the fact that there have been no less than 20,573 letters received and 18,064 letters written since January 1, 1905.

Compared with last year this is a gain of 4,336 in the letters received and 3,795 in the number of letters sent.

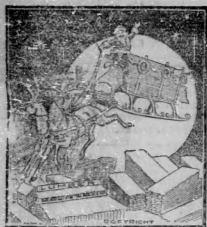

As pretty nearly every one of these letters involves some matter of business, or an inquiry which needs papers or tabulating, reference to old files, or the making of some new record, some faint idea of the amount of business done in the Edmonton land office during

the year may be gained. In the year just closed there were no less than 3,099 homestead entries against 2,033 for the preceding year. The total amount of land entered on for homestead during the year 1905 amounts to an area of 495,849 acres, a dominion of itself.

For the year 1905 there were 1320 applications for timber berths. There were 1,106 applications for patents to land already settled on and proven upon; and besides this there was the general run of work in the matter of miners' licenses and the recording of mining claims, and one hundred and one other matters that come under the head of land office business.

There are altogether twenty-five employees of the Edmonton land office, looking after the business of the Dominion in this district. Of these six are regularly in the land office here. There are sub-offices at Wetaskiwin, Leduc, Ponoka, Fort Saskatchewan, Whitford, Vegreville and Saddle Lake. There are sub-Crown timber agents at Athabasca Landing, Lesser Slave Lake, Peace River Crossing and Pozeville. There is one forest ranger, three homestead inspectors and a government interpreter.

STRATHCONA NEWS IN CONDENSED FORM

District Grand Master of Foresters Visits the City Across the Way—Personal Items

Strathcona, Jan. 10.—Mr. Shera Fort Saskatchewan, D. D. G. M., Alberta, presided at the L.O.O.F. hall here last Monday evening at the installation of officers for the New Year. The following were the officers elected for 1906, Noble Grand, P. Huber; Vice Grand, T. E. Powers; secretary, A. E. Richards; financial secretary, George Groat; treasurer, A. Benson. Considerable business was disposed of and a most enjoyable evening spent by those present.

Regular meeting of the L.O.L., No. 1654, was held in their hall here last night. There was a good attendance. Several new candidates were initiated and ordinary business transacted.

The Canadian Orange Lodge, Western Division, meets in the lodge here, February 6, 1906, when much important business will come up for discussion and settlement.

The following is the results of the election of councillors in the districts adjacent to town: Rabbit Hill district, Angus McLeod; East Edmonton district, Wm. Lang; Otakwila district, Charles Cropley; Salisbury district, George Stannard.

Mrs. Phil Shumonds and family, of Fort Saskatchewan, left by the 8.20 train for a visit to friends at Red Deer.

Mr. Peter Ronn, Lesser Slave Lake, left town this morning to bid adieu to his family and friends at Wetaskiwin before he returns home.

Mr. Ras, a gentleman from U.S. dominions came into town Monday with five head of horses. He purposes remaining in town till spring and then take up land in the west.

Mr. M. E. Herriek, of MacKenzie & Herriek, purposes at an early date to act as travelling salesman for the Sawyer-Massey Co.

A car load of fixtures and appliances for the new power house, consisting of smoketox, pipe and heater, came into town Saturday and has just been unloaded and transferred to the power house. This consignment came up from the Robb Manfg., Amherst, N.S., and will keep Foreman Mills and staff busy installing for some time.

The partnership lately existing between Messrs. James Crawford and T. Fawcett, heavy stable keepers, has been dissolved by mutual agreement, Mr. Fawcett retiring.

Ex-Mayor Davis has just received an answer to a communication addressed to Mr. Whyte, Vice-Pres. of C. P. R. to the effect that work on the high-level bridge over the river between the two cities, will be commenced early in the spring of 1906. This undertaking will mean a good heavy pay roll and consequently a large demand for supplies.

Mr. Radway, miner and farmer, Clover Bar, is busy in town these days delivering coal. He says the winter is against the miners, as there is not snow enough for easy delivery and the high, mild temperature reduces materially the demand.

Real estate is being eagerly sought for here now. Many lots have lately changed hands in the west end which seems to be the favorite location just now.

SCHOOL BOARD MET

At the regular meeting of the Edmonton public school board held Tuesday in St. Geo. Jellicott's office, there were present Chairman A. Taylor and Messrs. H. C. Taylor, A. E. May, Rev. H. A. Gray, and Dr. Ferris.

The building committee reported that they had interviewed Mr. Manson re his bill for extras, and that they had settled the account amounting to \$867.72, withholding \$500 from the original contract for completion of work. The committee also reported that the repairs at the high school requested by Principal Rae, were being made.

P. H. Russell wrote thanking the Board for his appointment to the principalship of the schools.

The school management committee reported that J. Pye, who had been appointed principal of the McKay Avenue school, was unable to take the position, and that Walter Scott, of Bath Lake, had been appointed instead. The report was adopted.

The committee also reported that Miss Evans, who had been appointed a teacher in Norwood school, was unable to take the position at present, and that she had offered to provide a substitute in the meantime. The report was adopted.

J. Huser applied for the position of caretaker of Norwood school at a

Here is another good thing: Two high and dry lots across the C. N. R. track for \$750 each, and terms. Have you noticed the rise lately across the tracks. We have several single lots there at \$750, terms.

Special attention. Two lots close in, on the River Lots for \$750, very easy terms. These are worth \$900.

Several lots on First, Second, Third and Fourth streets, West End, north of Jasper, from \$2000 up to \$4500 each. All good safe buying and sure of increase in value before many months.

Improved farms. There is sure to be a rise of values in the spring. We have several snags at present in Stony Plain, Clover Bar, and Sturgeon. What we cannot show you in good value will be hard indeed to find from \$10 to \$40 per acre and close in to Edmonton City.

Unimproved farms. We have several large tracts of country lying along the new railroad line from \$5 per acre and easy terms. The best of deep black loam and clay subsoil and partly clear of brush, plenty of good water.

EDMONTON DISTRICT.

Continued From Page One.

Few people in the Province of Alberta or out of it have any conception of the extent of the country known in the department as the "Edmonton district." Its extent is staggering to contemplate.

There are about 448,000 acres in the country which does its "land office" business at Edmonton.

Commencing at Range 7, 104 miles east of this city, it extends to the summit of the Rocky Mountains, which marks the boundary line of British Columbia, making a strip 312 miles wide. One hundred mile north of here it widens out by taking in the top half of the Battleford district, until it is almost 500 mile from side to side. The southern boundary of the district rests on a correction line which runs through Ponoka, and the northern boundary is the great unknown. From South to north it is 1,400 miles, a greater distance than from Winnipeg to the Pacific Coast, or that from Winnipeg to the Atlantic Coast.

Edmonton is not in the Canadian Northwest. It is in the southern part of Canada. The real North west of this Dominion lies to the north of this city.

The area of the Edmonton district is, roughly speaking, 700,000 square miles.

The Edmonton district is 60 times the size of Belgium. If it were a thickly populated as Belgium, it today it would hold more people than there are in the whole continent of Europe, or in the great populous area of China.

It is 45 times larger than Denmark, the greatest dairy country, (pending the development of Alberta) in the world. The little Scandinavian kingdom which has cut such a large figure in the making of Europe's history, is not as large as the Northern branch of the Great Slave Lake.

Switzerland could be lost in the foothills of the Rockies which are in the Edmonton district and our prospectors, lumbermen and ranchers would hardly be aware of the change of geography.

Great Britain could be taken out of the Edmonton district five times and leave enough trimmings to make Holland and Portugal, or Norway or Sweden.

Austria-Hungary, aspiring to the position of a world power, would go into the Edmonton district three times over, and have enough for the states of Rhode Island, Connecticut and Vermont left.

Egypt, the great imperial power of historic times, the cradle of the world's civilization, and at one time the home of 100 millions of people, is only half the size of the Edmonton district.

France, Germany, Italy, Norway, and Sweden, the five largest countries in point of area in Europe, would just about comfortably fit into the Edmonton district.

To put it another way the Edmonton district contains almost one-fifth of the area of the Dominion of Canada.

These figures give some idea of the size of the Edmonton district. The resources of it are harder to determine.

Wheat grown at Fort Vermilion, 360 miles north of this city as the crow flies, took the prize at the Chicago exposition in competition with the whole world.

Oats grown at Clover Bar, a few miles from this city, took the grand prize at Paris Exhibition.

The great wheat belt of Manitoba on which nearly 100,000,000 bushels of wheat were grown last year is not much longer from east to west than the wheat belt of the country tempered by the Pacific chinook is from North to South.

John Charlton, at the time he was postmaster general, once produced figures from the government reports to show that the wheat land lying north of the 49th parallel and between the Red River and the Rocky Mountains was capable of producing three billion five hundred million bushels of wheat annually.

The Peace River country alone could produce more wheat than is being eaten in the whole of Europe at the present time.

With a population capable of developing its resources, the Edmonton district could feed nearly half the world.

The wheat resources of this magnificent dominion is only one of those which will some day make this

country the most active in the world.

On the banks of the Athabasca River there are petroleum areas which will in time make that district rival Pennsylvania. East of the Athabasca there are salt mines where the trappers and hunters now mine salt for their own use from seams that would supply salt for the earth.

The coal areas of the Edmonton district are simply too large for computation.

The precious metal resources of the north are told in fable and story by hunters and voyageurs of the country on such a magnificent scale that to repeat them would be to cause a laugh. They are too big for the belief of anyone except those who have seen them. On the Copernicus river 1,450 miles north of this city, so the geologists tell us, he mound builders of ancient times mined native copper which was so rich that they, with their birch canoes and their slack-time explosives, came all the way from the Gulf of Mexico to delve.

Samples of galena, gold, copper, and zinc, iron, and silver ore are to be seen on exhibit in almost every really window of the city, and these have been picked up by travellers going through the northern country. Every pret from the Saskatchewan to the Arctic has its collection of samples.

The timber resources of this country which comes under the head of the Edmonton district are more apparent than the mineral resources, at so far they have been but little more developed. There are a few scattered locations in the south part of the district, along the Saskatchewan, but the great north, with its millions of acres of spruce and pine, has not even been explored, and the horoscope of the nation's development indicates that the present generation will be resting with the unnumbered before the sawmills of the Athabasca reach the premisses of their activity.

Will Edmonton grow? The best answer is to be had by spending an hour or two in the land office, which will be sufficiently convincing to convert the most skeptical.

ALBERTA WANTS THE DOMINION FAIR.

The action of the Edmonton Board of Trade in agreeing to assist Calgary in securing the Dominion fair for 1907 should go far toward establishing more cordial relations between the two cities, the more so because Edmonton had at least the desire of securing this boon herself and the board of trade had some time since taken the preliminary steps toward urging the matter upon the attention of the Federal Government. Calgary, however, went after the fair in a business like manner and the Edmonton board recognizing the southern city as first in the field gave way and will do what lies in their power to further her efforts. This should make it plain to the people of Calgary that Edmonton does not aspire to become the "hog-town" of Alberta. The business men of Edmonton have not been open to the accusation of indifference in forwarding the interests of their city, but the action of the board is evidence that their desire to advance Edmonton does not carry them beyond what they consider their reasonable rights. To injure Calgary is no part of Edmonton's program.

It is better that the united efforts of the Province should be devoted to securing the fair for some Alberta city than that the prize should be lost through local strife. The Dominion fair would be to Alberta a matter of Provincial rather than local concern. While the direct and temporary benefits might belong particularly to the city in which it was held the entire Province would share in the general and permanent benefits of the competition and in the advertisement it would afford. It is therefore in the highest degree desirable that the other corporations of Alberta join in urging the claims of Calgary for the fair of 1907. And should these efforts be successful, equal unanimity should prevail in endeavoring to make the fair in every way worthy the potential Province of the West.

COMMITTEES AND PUBLICITY

At the regular session of the city council on Tuesday evening Ald. Griesbach lodged a protest against the publication of reports of committee meetings, before the reports of such committees have been presented to the council. In pointing his argument Ald. Griesbach referred to an article appearing in a recent issue of the Bulletin regarding a meeting of the Telephone committee.

The ground which the Bulletin takes regarding this and similar matters is that all available information relating to civic business should be published at as early a date as possible that the ratepayers may keep abreast of the trend of civic affairs and be in a position to form an intelligent judgment on the conduct of the city's business. In other words the Bulletin wants the news, wants it when it is news, and so far as legitimate newspaper enterprise can succeed it purposes to accomplish this. At the same time it is not desirable that the discharge of civic business should be disturbed nor members of the aldermanic board placed in an unfair light by the premature publication of matters on which no official action has been taken.

Under the city charter no provision is made for the appointment of committees of the city council and consequently no provision is made for the publication of reports of committee meetings. Any committees therefore which the council may see fit to select have no legal or official standing and unless some special regulations are adopted by the council the information produced at such meetings, and upon which the recommendations of the committees are based is not available for publication, save through the courtesy of members of such committees.

It is in the interests of all concerned that such information should be fully and promptly published and especially so in the interests of the members of the committees and of the city council. The former are directly responsible for their recommendations to the council and the latter for the acceptance or rejection of such recommendations to the electors. Every alderman therefore, has a personal and public concern in having the detailed information by which his actions are determined presented fully and fairly to the public. Such can only be accomplished by the publication of the documentary or verbal information on which the deliberations of committees are based.

There appear two ways of accomplishing this purpose. Committee meetings might be held openly and notice of such meetings given to the press or the report of a committee when presented to the council might be accompanied by all letters and documents which came before the

committee, with an authoritative minute of the considerations which determined the report. The former method appears likely to prove the more satisfactory to all concerned and the council should legislate accordingly forthwith.

CURRENT COMMENT

It is about time that the people who did not invest in bicycle shares about five years ago began buying automobile stock.

A factious scribe suggests that the Russian tradesmen struck because the Czar wanted to be the only cabinet-maker in the realm.

If any confidence can be placed in the calculations of American mineralogists there should be no dearth of applicants for jobs with the G. T. P. survey parties.

If he continues informing eastern people of the piscatorial possibilities of Alberta, N. C. Butterfield can only expect to have himself accused of telling fish stories.

It will now be up to the Opposition to oppose the construction of the G.T.P. on the ground that some prowling surveyor will find those alleged diamond mines and flood the market with sparkling stones.

It would be the unearthing of a cruel plot should the Opposition discover that these stories about diamonds in Northern Ontario were started by the Government in the hope of getting cheap labor on the Grand Trunk Pacific.

President Phillips of the York County Loan Co. has been arrested. He probably deserved it, but the roundup should be extended on general principles to the directors who hired him to engineer a loan company, at \$25 per week. A small salary is no excuse for dishonesty, but it is pretty often the cause of it.

John Houston, mayor of Nelson and member of the B.C. Legislature, has returned to Victoria, to attend the session. He left Nelson some time since, leaving also \$15,000 uncollectable liabilities. As a member of the House he is exempt from interference for a month (proceeding and following the session. If John's creditors are voters this game will only work during the life of the present Legislature.

Sir Charles Diller has issued an election address of seven words. It reads: "I solicit a renewal of your confidence." But it is safe guessing that this curtailed effusion will carry more weight with his constituents than these seven common election addresses which were formerly hurled at the electorate by Sir Charles' Canadian namesake. At any rate the Britisher is still in politics.

MEETING OF THE HIGH SCHOOL LITERARY

The meeting of the high school literary, Mr. Harry Bragg, editor of the church Wednesday afternoon at three o'clock. This was the first meeting for the year 1906, and from its appearance we hope for better success than ever in the following meetings.

The minutes of the last meeting were read by Mr. Clyde Sutherland, because of the illness of our regular secretary, Miss Florence Forin. Proceedings were then taken to appoint a new secretary and also officers to manage the high school paper. Mr. Clyde Sutherland was made secretary, and Mr. Harry Bragg editor of the paper and Mr. Ray Powell, assistant editor.

The program was given as follows: Piano solo, "To the Fairest," Miss Lily Richardson. Recitation, "Song of the Market," Miss Margaret Wallace. Quartette, "Torchlight," Messrs Walker, Knott, Beals, Calhoun. Recitation, "Nancy," Charlie Lyons. Piano solo, "Old Folks at Home," Beals.

The subject of the debate was, "Resolved that Country Life is More Conducive to Happiness than City Life." Although this is an old subject to some, it was very interesting to the most of us. The affirmative was taken by Miss Lucinda McCauley and Miss Constance Dreck, and the negative by Miss D. Tremblay and Miss Pearl McKnight. Although these girls are some of the quietest in the high school, they proved the old saying, "Still waters run deep," by the very able manner in which they carried out their parts. Especially was this true of Miss Lucinda McCauley. A few remarks were then made by the critic Mr. Johnson. The program was closed by the singing of the national anthem.

MUNICIPAL NOMINATIONS

Carleton Place, Jan. 10.—The first municipal nominations of the newly incorporated town of Carleton Place resulting as follows: Mayor Geo. Riddell, acclamation; councillors, C. Scott, H. Cochrane, J. Gunn, L. Porteous, C. Lawford, G. Kellet, G. Stockton, G. Fisher, S. Rothwell, H. Robertson, C. Hart, J. Henderson, B. Hollonquist, J. Cutler, J. H. Dodds, L. Hayward, J. W. Wilson.

HOMESTEAD ENTRIES INCREASED.

Ottawa, Jan. 10.—The homestead entries for the month of December show an increase of 423 over Dec., 1904. The increases are at Regina, Battleford, Edmonton, Red Deer, and Alameda. There were decreases at Prince Albert and Lethbridge. W. T. Preston sails for England on Saturday. He expects that the immigration returns for the present year will exceed 1905. At any rate there will be no cessation in the vigorous immigration campaign which is now being conducted in Britain.

London, Jan. 10.—Some changes are involved in the latest arrangements for beginning the elections. The first election will take place at Ipswich on Jan. 12. Twenty-five elections in various districts will take place on Jan. 13.

CAUGHT BETWEEN TRAINS

Eric, Pa., Jan. 10.—While waiting at a crossing for a freight train to pass one hundred men were caught by a fast passenger between the two trains. John Maris, a laborer, was instantly killed. Henry Emmert, superintendent of a milling company, was fatally injured and scores had miraculous escapes.

TO BE TRIED FOR MURDER.

Portage la Poudre, Jan. 10.—The preliminary trial of Ed Grobb charged with the murder of Thompson Clarkson two months ago was held in the courthouse today before Magistrate Marshall. Edward Anderson is prosecuting attorney and A. Meighen is conducting the case for the accused. A number of witnesses for the Crown were examined but the defence did not submit evidence. When asked if he had anything to say Grobb replied "no." The magistrate committed the prisoner to stand trial at the assizes and he was conducted back to jail. Grobb is in good health and fine spirits and seemed anxious to greet all his acquaintances around Treherne.

The New Bovril Premium
"Little Lady Bountiful"

A beautiful gravure reproduction of Mr. Fred Morgan's charming Oil Painting, size 28½ inches by 19¾ inches, printed on fine plate paper 40x30 inches, with no advertising matter, is given Free to users of BOVRIL who save the coupons, one of which will be found over the neck of every bottle of BOVRIL.

This Bonus Picture must not be confused with cheap premium pictures. It is a work of art worthy a place in the most cultured home. The subject is extremely interesting.

On the grass in a charming woodland spot by a lake a mother and her three beautiful children have spread their picnic table cloth. Everything indicates wealth and health and happiness, the cake and fruit are served on choice china with snowy linen, and both mother and children are daintily attired. Standing apart and gazing with wondering, wistful eyes at the luncheon so temptingly spread, are a tiny girl and her timber brother, barefoot and evidently less fortunate in worldly possessions. Prompted by her mother, the wee tot of the picnic party, with some of the heat of the luncheon on a plate carried before her is advancing toward the little ragged intruders, tendering with shy and gentle grace her offering. The little barefoot boy seems embarrassed yet delighted by this immediate prospect of good things and is shyly putting out a little brown hand to receive.

Altogether the picture is one of the most charming conceptions, and is sure to please and delight.

FARMERS' PAGE

BRING SAMPLES OF SEED GRAIN

The following circular has been issued with reference to the seed grain train:

"Those who will be in charge of the seed train will be able to do a very useful service throughout the entire route in identifying and describing the weeds that are prevalent or are liable to be introduced into any locality. It is when a weed is new to the district that we should find out all about it, not when it has overrun the farms. Any farmer who has a weed that he does not know, should bring to the train a specimen of some of the seeds, and find out from the lecturers its name and the best means of controlling it. It often saves an immense amount of trouble and expense to know exactly the nature of a new weed, and the experience of others regarding it. The lecturers will be glad to render such a service and the more helpful they can be the better pleased they will be.

"Another useful class of work will be the testing of samples of seeds brought to the train. A great loss is often caused by sowing grain with low or weak germination. This is something that can be determined before seed is sown and when there is any doubt whatever regarding the germination of seed it should always be tested. Only an ounce or two of seed is required for a test and such samples should be left with those on the train. All kinds of grain and smaller seeds marked with the name and address of the owner will be taken and a report on their vitality sent in ten days or two weeks. No charges whatever will be made for testing and reporting, and advantage should be taken of this opportunity to have grain and seeds tested, and weeds and weed seeds identified.

"Bear in mind the day and the hour at which the train is billed to arrive, and as the train will run by schedule time it is important to be on time. Late arrivals will not only miss a portion of the lecture themselves, but will disturb to some extent the comfort of those who are on time."

NORTHERN INDEPENDENCE

Korrespondence
The union Christmas tree, held in Independence school house, was a great success. Presents had been bought for seventy-three children, all of whom are living in the vicinity.

The literary society connected with Farmer's Society of Equity had a very interesting debate last Saturday evening. The subject for discussion was "Resolved that the Indian has suffered more at the hands of the white man than the negro has."

The affirmative won. A dance was held at the home of Mr. Geo. Reid on Christmas night. A large number were present all of whom spent a very enjoyable time.

Mr. Shode and family have moved into their house on the northeast quarter of Sec. 24 in this township. Miss Blanche Renee has just closed a very successful term of school in Advance school district.

Mr. MacAfee is running his feed grinder at Mr. Shaver's. We understand he intends to set up his saw mill at Independence this winter.

Another new family has recently moved into our neighborhood, Mr. Miller and family. They are staying at Chas. Poston's during the erection of their own house.

COMMUNICATION

Editor Bulletin: I observed an article in the Semi-Weekly Bulletin of January 9, over the signature of W. J. Keene, objecting to a statement in my article in a previous issue of the Bulletin, relative to the formation of the Alberta Farmers' Association. In reply thereto I will say that the Equity people had reason to find fault with it as it read, but in explanation I will say that it occurred through an omission by a copyist. The article as written read: "The Grain Growers Association and a portion of the Society of Equity near Edmonton." In copying, the words "a portion of" were omitted, hence the statement was objected to by Mr. Keene.

—Some time ago George Harcourt, deputy minister of agriculture, was interviewed by the Bulletin in regard to the omission of points between

Calgary and Red Deer in the itinerary of the seed grain special. Mr. Harcourt stated at the time that the railway companies were responsible for the seed grain special and that the provincial department of agriculture was not contributing anything to the expense of the train. The scopes had all been arranged by officials at Winnipeg. Mr. Harcourt wrote to W. B. Langan, general freight agent, Winnipeg, asking why scopes were not made at certain points. Mr. Langan stated in reply that owing to the magnitude of the undertaking they had been compelled to leave out all points at which less than 50,000 bushels of grain had been shipped during the past season. In accordance with Mr. Harcourt's suggestion, however, Mr. Langan stated that the train would pick up all farmers at intermediate points desirous of taking advantage of the lectures and carry them to Red Deer, returning them on the regular evening train free of charge. It would be necessary for the presidents or secretaries of the agricultural societies at these points to certify that all who wished to travel were farmers.

The intermediates will probably play with Red Deer at the Thistle Rink here next Tuesday. The Red Deer team is made up of nearly all senior players. Big "Gummy" Watson is in goal, and one or two other old players figure on the line-up. But while the Red Deer bunch have the weight, the little Thistles can just about put it all over them when they come to the capital.

R. Benson will referee the senior game here tonight, and Arnold Burley will be judge of play. The prospects for having fast ice are good, and there should be a big crowd at the match. It is victory or death with the Thistles this time, and there is good reason to believe that it will be the former. Campbell and Reg. Elliott will not be on the line-up. Arnold Johnson will play right wing, and Harold Grady will be in goal. Later word from Strathcona says that Hamilton will be ready for the game tonight, and the line-up of their team will probably remain unchanged.

CURLING

The ice was taken up with cup games last night, and there were some very good games, particularly the one between the rinks of Second and Hamilton. These two rinks were tied at the end of the 12th end, necessitating an extra end being played. The scores were as follows:

B. Nagle G. A. Barker
P. Barnes R. L. Haskell
R. Secord D. McGibbon
J. A. McLean W. Gibbison
Skip 9 Skip 8

Thompson A. W. Campbell
Lemstra R. McIntosh

Skip 15 Skip 8

Wills
Lynch J. Wilson
A. W. Ormsby A. E. Jackson
G. J. Kinnaird J. L. Studholme
Skip 6 Skip 16

Two rinks from Fort Saskatchewan are coming in tonight to play a friendly game with the home club. Two rinks go to Wabaskin tomorrow to play for the District Medals. These rinks will be skipped by W. G. Ibbotson and D. Galbraith.

The draw for Friday, January 12—
Carmichael vs. Studholme,
Parsons vs. Lander.
The draw for tonight—
Campbell vs. Moore,
May vs. Wize
Hardisty vs. Galbraith.

—The fourth special meeting of the week of prayer will be held this evening in Queen's Avenue Presbyterian church at 8 o'clock. Rev. Archibald Ewing and Rev. C. H. Huestis will deliver addresses on the subject of Missions. The meetings so far have been well attended and addresses very much enjoyed.

—Mr. H. Smith of Camrose put up his furs to the highest bidder yesterday and they were secured by Ullman & Co. for the sum of \$1530. The other bids were, A. Carruthers & Co., \$1434.90; McDougall & Seord, \$1300.75; H. B. Co., \$1251.79; Revillon Brothers, \$1250.00; McMillan Fur Co., \$1201.85; Henderson & Co., \$1136.25.

The hall is 30 x 65 feet and will make the finest lodge rooms in the city. The Oddfellows at the first of the year had a membership in Edmonton of 110, and is strengthening that at almost every meeting.

—The first meeting of the license commissioners for the present year was held in the inspector's office yesterday afternoon at 3 o'clock, the entire board being present, namely A. E. May, of Edmonton; J. J. McKenz, Strathcona; J. D. Simons, Fort Saskatchewan. The only business presented to the meeting was the application of the Brunswick hotel for a license to sell liquor in the premises to be known by that name on Second Street. Consideration of the application was adjourned for a week.

—Saskatoon Phenix: Last Monday morning when Mr. W. J. Bell went to his office on Second Avenue, his New Year's greeting was his safe open. On examination he found that \$50 in money had been taken, and a number of blank banker's orders were also taken, which, if filled out would be worth \$800 provided all were put at \$50, the highest amount for which an order is issued. The blanks were signed by the manager and accountant of the Bank of Commerce and could easily be filled up and cashed. The safe had not been forced open but someone who either knew the combination or was a safe expert opened the door. The inside drawer had been forced open. No clue has yet been found to the perpetrators of the crime. The police have nothing to say.

A MAN WHO WOULD BE KING

New York, Jan. 10.—Barnett Cohen, a rubber merchant of Manchester was taken from the steamer Cedric before she sailed, going to Bellevue hospital to be examined as to sanity. Cohen who said he was "king of the rubber trade of England" went to the steamer in an automobile. He wore several hundred dollars worth of jewelry including a Masonic watch chain which he says King Edward gave him. He came here from Winnipeg where he had been to inspect some of his properties.
